

Health conditions in the occupied Palestinian territory, including east Jerusalem, and in the occupied Syrian Golan

The Seventy-second World Health Assembly, taking note of the report by the Director-General requested in decision WHA71(10) (2018),¹ decided to request the Director-General:

- (1) to report on progress in the implementation of the recommendations contained in the report by the Director-General, based on field monitoring, to the Seventy-third World Health Assembly;
- (2) to provide support to the Palestinian health services, including through capacity-building programmes and the development of strategic plans for investments in specific treatment and diagnostic capacities locally;
- (3) to ensure sustainable procurement of WHO prequalified vaccines and medicine, and medical equipment, to the occupied Palestinian territory in compliance with international humanitarian law and WHO norms and standards;
- (4) to provide health-related technical assistance to the Syrian population in the occupied Syrian Golan;
- (5) to continue providing the necessary technical assistance in order to meet the health needs of the Palestinian people, including prisoners and detainees, in cooperation with the efforts of the International Committee of the Red Cross, as well as the health needs of handicapped and injured people;
- (6) to support the development of the health system in the occupied Palestinian territory, including east Jerusalem, by focusing on the development of human resources, in order to localize health services, decreasing referrals, reducing cost, strengthening provision of mental health services and maintaining strong primary health care with integrated complete appropriate health services; and
- (7) to ensure the allocation of human and financial resources in order to achieve these objectives.
